

Grants for Young Researchers for Participation in APHES Meetings

1. APHES provides grants for participation in its Annual Meetings in an amount covering registration costs.
2. These grants are attributed to APHES members who:
 - a) Have had their paper accepted by the Meeting's Scientific Committee;
 - b) Are students at the masters or doctoral level;
 - c) Have their membership fee up-to-date.
3. The deadline for application, to be sent to the Organizing Committee, is 60 days before the beginning of the Annual Meeting.
4. In the application, the applicant must show proof of being a master or doctoral student.
5. The beneficiaries of these grants must send their paper within the deadlines defined by the Organizing Committee; the consequence for not respecting these deadlines is having the application refused.
6. The Board of Directors of APHES decides the number of grants and the criteria for attribution.
